### **JR Automation to Exhibit at FABTECH 2018**

*HOLLAND, MI – October 22, 2018* – JR Automation, a leading provider of intelligent automated manufacturing and distribution technology solutions headquartered in Holland, Michigan, will be showcasing at FABTECH, North America’s largest metal forming, fabricating, welding, and finishing event.

Demonstrating advanced robotic solutions for a broad range of industries, the JR Automation exhibit features our brand-new Global Welding Platform (GWP) cell. This flexible, robust system can be customized in a variety of configurations, sizes, and options to suit our customers’ specific needs and application requirements. Attendees of FABTECH will see the H-Frame welding platform, fitted with two FANUC ARC Mate 100iD/12 w/ R-30iB robots and a 96” dial table. This cell is ideal for welding a variety of large components.

“We are pleased to debut the Global Welding Platform at this year’s FABTECH show. JR Automation is an industry leader in the welding sector and we look forward to introducing this new product,” said Bryan Jones, CEO of JR Automation. “Leveraging more than 38 years of industry experience, our team of dedicated weld engineers have developed a unique, flexible weld platform that will benefit our customers and help drive productivity and cost savings.”

Through thoughtful and dynamic collaboration, JR Automation creates innovative solutions for manufacturing companies across the globe; helping them think, solve, create.

JR Automation welcomes guests to [Booth #C11675](#) at FABTECH 2018, Georgia World Congress Center, Atlanta, GA, November 6-8, 2018.

For sales inquiries, please call 833-800-7630 or email [solutions@jrautomation.com](mailto:solutions@jrautomation.com).
