The Detroit Free Press Names Esys Automation a Winner of the Michigan 2018 Top Workplaces Award

Auburn Hills, MI – November 14, 2018 – [Esys Automation](#), a [JR Automation](#) company, has been awarded a [Top Workplaces](#) honor by the Detroit Free Press for the fifth consecutive year. [The list](#) is based solely on employee feedback gathered through a third-party survey administered by research partner [Energage](#), LLC (formerly WorkplaceDynamics), a leading provider of technology-based employee engagement tools. The anonymous survey measures several aspects of workplace culture, including alignment, execution, and connection, just to name a few.

“Top Workplaces is more than just recognition,” said [Doug Claffey](#), CEO of Energage. “Our research shows organizations that earn the award attract better talent, experience lower turnover, and are better equipped to deliver bottom-line results. Their leaders prioritize and carefully craft a healthy workplace culture that supports employee engagement.”

Esys Automation understands that high quality people are required to deliver high quality automation systems and services to our customers. We strive to attract and retain the best team members and to be a *Workplace of Choice*. “Our people are our greatest asset, and we commit to a positive workplace culture by remaining a transparent organization,” says Kathie Belkowski, Director of People Engagement at Esys Automation. “Transparency fosters trust and engagement, which is crucial to our culture. We share data across the board, from our financial position and outlook to our future growth plans.”

In addition, we are excited about our expansion plans! We are moving to a newly constructed 125,000 square-foot facility at the beginning of 2019 and have several new openings to accommodate our growth! We are looking for controls, mechanical, robotics, and applications

engineers as well as project managers with an engineering background. To join our growing team, visit www.esysautomation.com/careers.
